**Try Scuba**

Adults/Kids 8+

**Marine Ecology Specialty**

Adults/Kids 10+

**Basic Underwater Photography**

Open water certified divers

**Scuba Skill Update Courses**

Open water certified divers

**Master Scuba Diver**

50 logged dives+5 specialty courses

Our courses, offered in collaboration with SSI, are taught by leading marine conservationists who have vast experience in studying coral reefs in Indonesia and the Coral Triangle region. Proceeds of the courses support the Coral Triangle Center's marine conservation activities, so you are not only learning new skills but directly contributing to the protection of coral reefs and marine life in the world's epicenter of marine biodiversity.

### **Basic snorkeling**

This course provides an introduction to common snorkeling equipment and skills needed to snorkel safely and responsibly. The course can be conducted in the pool or in the ocean.

*Duration: Half Day/  
Contribution: IDR 1,000,000*

### **Marine Ecology Specialty**

The program focuses on any the following marine environment specialties: marine ecology, fish identification, coral identification, sea turtle ecology, and shark ecology.

*Duration: 1 Day/  
Contribution: IDR 1,000,000*

### **Try Scuba**

This course is conducted in the pool and provides an introduction to the underwater environment, dive equipment, basic diving skills, and hand signals.

*Duration: 1 Day/  
Contribution: IDR 1,500,000*

### **Basic Underwater Photography**

The program will introduce certified divers to the marine environment using basic underwater camera equipment, editing techniques, and environment-friendly code of conduct for underwater photographers.

*Duration: 1 Day/  
Contribution: IDR 2,000,000*

### **Scuba Skill Update Course**

Not dived for a while? Boost your dive confidence and practice your skills! This scuba refresher course is a safe and fun way to review the skills that you learned in your Open Water Diver program. It's also a great course to take just before a dive holiday, so you spend less time worrying about your skills and more time admiring marine life.

*Duration: 1 Day  
Contribution: IDR 2,000,000*

### **Master Scuba Diver**

This is a recognition program for open water certified divers who want to reach the next level. To avail of this recognition, students need to have 50 logged dives and complete 5 specialty courses. Students are required to complete the Reach Right and Stress and Rescue specialty courses prior to taking this program and then complete 4 other specialties of their choice offered by the Coral Diving School.

*Duration: 2 weeks
