Inspiring People Saving Oceans

ONLINE FUN LEARNING ACTIVITIES

Coral Triangle Center (CTC) is a non-profit foundation based in Indonesia whose goal is to promote the conservation of marine biodiversity and the sustainable management of marine and coastal resources across the Coral Triangle region. As part of our aim to inspire people to care for our oceans wherever they maybe, we are offering fun learning classes online to engage children, youth, families, and other interested individuals to learn about our marine environment through interactive online classes. Our online classes are based on the fun learning program that we have been implementing at our Center for Marine Conservation in Sanur, Bali. These will be taught by our learning facilitators who bring years of experience and knowledge in environmental education and learning.

Coral Clay Workshop

Learn about corals while making your own out of clay! Bring out your creative side and learn about the different coral life forms that exist in a reef while hand moulding clay. The workshop is based on the Coral Universe ceramic sculpture at CTC's Center for Marine Conservation, which aims to raise awareness on the beauty and fragility of our reefs.

Participant: Min 2 pax; Max 90 pax Platform: Zoom Duration: 90 minutes

Contribution	IDR 180,000/Pax	IDR 150,000/Pax
Inclusion	<ul style="list-style-type: none"> - Coral clay kit package (excludes shipping cost) - Presentation and introduction to coral reefs habitats - Live coral clay tutorial - E-certificate 	<ul style="list-style-type: none"> - Presentation and introduction to coral reefs habitats - Live coral clay tutorial - E-certificate
Booking requirement	7-days advance booking required	3-days advance booking required

**participants will need to prepare their own kits. The clay can be replaced with polymer clay.*

Fun Learning Class

Our interactive fun learning class offers basic knowledge about the state of our oceans and marine life. By taking this class, participants will have a better understanding about the current issues facing our marine environment and existing solutions while experiencing a fun and engaging learning process. Participants will learn about specific topics such as coastal ecosystem, sea animals, and other requested topic through engaging presentations combined with fun online games and quizzes. Classes are flexible and the topic and duration can be customized based on the participants' request.

Participant: Min 2 pax; Max 90 pax Platform: Zoom Duration: 90 minutes

Contribution	IDR 150,000/Pax
Inclusion	<ul style="list-style-type: none"> - Presentation based on selected topic - Online games and quizzes - E-certificate
Booking requirement	3-days advance booking required

Traditional Sea Animal Weaving Workshop

Get to know more about charismatic marine animals while learning traditional Indonesian weaving practices! Using coconut or palm leaves as the main material, participants will learn to weave iconic marine life such as sea turtles, tuna, and crabs, among others. While enjoying this weaving process, participants will learn about their unique traits and their importance in keeping a balanced and healthy ocean.

Participant: Min 2 pax; Max 90 pax Platform: Zoom Duration: 90 minutes

Contribution	IDR 180,000/Pax	IDR 150,000/Pax
Inclusion	<ul style="list-style-type: none"> - Weaving kit package (excludes shipping cost) - Presentation and introduction to coral reefs habitats - Live weaving tutorial - E-certificate 	<ul style="list-style-type: none"> - Presentation and introduction to coral reefs habitats - Live weaving tutorial - E-certificate
Booking requirement	7-days advance booking required	3-days advance booking required

**participants will need to prepare their own kits. The coconut / palm leaves can be replaced with paper ribbon.*

Sea Animal Story Telling

Our sea animal online storytelling class is designed for early childhood learners 4 years old or above who are curious and want to know more about animals living in the ocean. Using sea animals woven out of coconut leaves as the main characters, we will tell compelling stories about our underwater ecosystems inspiring young minds to care for our marine friends. Participants have the option to choose the topic of the story they want to hear such as "The Sea Animal and Plastic Pollution," "Fun Facts About Sea Animals", and "Underwater Animal Homes".

Participant: Min 2 pax; Max 90 pax Platform: Zoom Duration: 30 minutes

Contribution	IDR 100,000/Pax
Inclusion	<ul style="list-style-type: none"> - 1 Story telling session - E-certificate
Booking requirement	3-days advance booking required
