Inspiring People Saving Oceans

# FUN LEARNING ACTIVITIES

@ CTC CENTER FOR  
MARINE CONSERVATION

## Escape Room SOS from The Deep

Escape Room "SOS from the Deep" is the first ever marine conservation themed escape room in Indonesia. It is a fun interactive game aimed to inform people about the ocean environment, and the threats it faces, while they challenge themselves against the puzzles. Through this game, players will have a greater understanding and what they can do to save the ocean.

### Contribution:

IDR 200,000 / Adult Player / Game

IDR 180,000 / Children (under 13 y.o) / Game

(2-6 players / Game)

## Escape Room SOS Plastic Danger

Escape Room "SOS Plastic Danger" raises awareness on the rising threats and dangers of plastic pollution to human life and the environment. Players are challenged to save marine life from drowning in plastic soup while learning about solutions that they can adopt in their daily lives to stop this global menace before it's too late!

### Contribution:

IDR 200,000 / Adult Player / Game

IDR 180,000 / Children (under 13 y.o) / Game

(2-6 players / game)

## Fun Learning Class

Learn basic knowledge about the ocean and marine life, and why we must protect them. Through an engaging presentation followed by fun quizzes and games, participants will gain a better understanding and appreciation of our marine environment, the issues it faces, and the existing solutions. We have a variety of topics related to marine conservation issues available for selection.

### Contribution:

IDR 200,000 / Person

(Min. 10 people; Max 40 people)

3-day Advance Booking Required

## Coral Clay Workshop

Learn about corals while making your own out of clay! Bring out your creative side and learn about the different coral life form that exist in a reef while hand molding clay.

The workshop is based on the Coral Universe ceramic sculpture at the Center for Marine Conservation, aiming to raise awareness on the beauty and fragility of our reefs.

### Contribution:

IDR 200,000 / Person

(Min. 2 people; Max 40 people)

3-day Advanced Booking Required

## Traditional Sea Animal Weaving Workshop

Get to know more about charismatic marine animals while learning traditional Indonesian weaving practices! Using coconut leaves as the main material, participants will learn to weave marine animals such as tuna, sea turtles, and crabs, among others, while understanding their unique traits, and their importance in keeping a balanced and healthy oceans!

### Contribution:

IDR 200,000 / Person

(Min. 2 people; Max 40 people)

## Amazing Ocean Race

Participate in a fun and friendly challenge with your friends, family and colleagues, by playing Amazing Ocean Race. It's a race against time and teams where you will be quizzed on ocean related facts at the unique pitstops throughout our Center for Marine Conservation, like the Wayang Samudra Hall and the Coral Universe ceramic sculpture.

### Contribution:

Starts from IDR 50,000 / Pit Stop / Person

(Min. 20 people; Max 40 people)

3-day Advanced Booking Required

## Underwater City & Sustainable Fishing

Dive into the mesmerizing underwater world and meet its magical creatures. Discover their vital roles in the ecosystem and learn how to protect underwater life through sustainable fishing practices. This experience and game will enhance your understanding of how sustainable fishing method will ensure the balance of the underwater ecosystem and marine biodiversity.

### Contribution:

IDR 200,000 / Person

(Min. 10 people; Max. 40 people)

3-day Advanced Booking Required

## Adopt A Coral

Play a part in saving corals by donating to our Adopt A Coral program. The donation will go to transplanting a coral in our coral rehabilitation nursery in Nusa Penida Marine Protected Area. The baby coral will be monitored by our local community partners. Coral adopters will also have a chance to simulate the tagging of their baby corals with their personal messages using ceramic coral pieces at the Center for Marine Conservation.

### Contribution:

IDR 300,000 / Baby Coral

## Adopt A Mangrove

Become a coastal guardian by supporting our Adopt-A-Mangrove program. Your donation will fund mangrove planting efforts in our conservation area in Nusa Penida MPA. As an adopter, you will also have the opportunity to participate in our Fun Learning Trip program, where you can plant a mangrove yourself. Additionally, our local community partners will monitor the growth of your adopted mangrove to ensure its health and success.

### Contribution:

IDR 150,000 / Baby Mangrove

## Fun Learning Trip

You will meet with our team in Nusa Penida Marine Protected Area (MPA). While on the island, you will learn about MPAs, visit a mangrove forest, have a chance to participate in coral and mangrove rehabilitation projects, meet local community conservation leaders, and learn about marine ecosystems through fun games!

### Contribution:

Starts from IDR 1,500,000 / person (half-day trip)

Starts from IDR 2,000,000 / person (full-day trip)

1-week Advance Booking Required

## Community Art Canvas

If you have ever felt inspired by ocean life, and been amazed by its beauty and colors, then you'd want to join our painting workshops. During this workshop, you will be given a chance to portray your love of the ocean on a canvas that you will be able to take home with you to admire.

### Contribution:

IDR 550,000 / Person

(Min. 5 people; Max 20 people)

1-week Advance Booking Required

## Dinner with Art Performance

Join a unique dining experience at the Center for Marine Conservation and savor local delicacies while enjoying Wayang Samudra or Kecak performance by the Coral Universe ceramic sculpture. These unique performances tell compelling stories about the ocean, inspiring you to care for their survival.

### Contribution:

IDR 900,000 / Person

(Min. 20 people; Max 150 people)

1-week Advance Booking Required

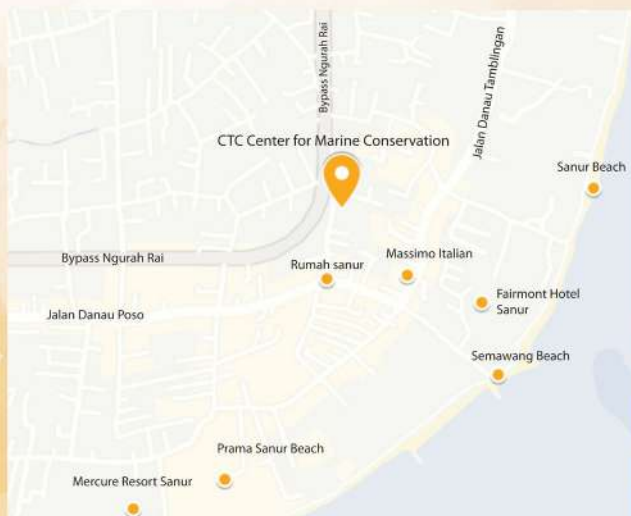

## ABOUT US

Coral Triangle Center (CTC) is a non-profit organization in Bali. Established in 2010, CTC provides education, training, and makes sure that marine protected areas within the Coral Triangle- the world's epicenter of marine biodiversity – are managed effectively.

CTC's Center for Marine Conservation is an integrated learning space dedicated to coral reef and ocean protection. We provide eco-friendly training facilities, immersive fun learning programs, and creative workshops for people from all walks of life to learn and be inspired to protect our reefs and oceans.

*Come and learn with us and make your stay in Bali a memorable and rewarding one!*

*All proceeds from fun-learning activities will be used to support CTC's marine conservation activities in Indonesia and the Coral Triangle.*
